

Create New Users

A quick guide to creating and inviting new users to your BuildVision organization.

1

Open Settings

Click the **settings wheel** (gear icon) in the **bottom-left corner** of the page.

2

Go to the Users tab

In the Settings menu, click the **Users** tab.

3

Invite a user

Click the **+ Invite User** button in the top-right corner.

4

Start a new user

In the **Inactive Users** window, click **+ New User**.

5

Fill out the information

Enter the required details — **First Name**, **Last Name**, **Email**, and **Role** (fields marked with *). Add an optional avatar if you like.

6

Create the user

Click **Create** to add the user.

7

Send the invite

The new user appears under **Inactive Users**. Click the **Invite** button next to their name to email them their invitation.

Tip: A user isn't notified until you click **Invite** in step 7 — creating them only adds them to the inactive list.

Steps 1–3: The Users tab with the Invite User button in the top-right.

Steps 4 & 7: The Inactive Users window — use New User to add someone, and Invite to send the request.

Steps 5–6: The Create User form for entering the new user's details.
